

Safety conditions for beeswax balm containing solvents

Caution: Particular care is required when handling products containing solvents. Please observe the following safety conditions:

1. Storage and safekeeping

Always keep containers tightly closed.

Store in a cool, dry and well-ventilated place.

Keep away from sources of ignition, naked flames, sparks and hot surfaces.

Do not store near food, drink or animal feeding stuffs.

2. Use

Use only in well-ventilated areas.

Do not breathe vapours.

Avoid contact with skin and eyes.

Wear protective gloves and goggles and respirator if necessary when handling.

Avoid naked flames or sources of sparks during use.

3. Health protection

In case of skin contact: Wash off with plenty of water and soap.

In case of eye contact: Rinse eyes immediately with water and seek medical advice.

If swallowed: Do not induce vomiting; seek medical attention immediately.

4. Environment

Dispose of the product and container properly. Do not allow product to reach sewage system, water bodies or soil.

5. Fire protection

Solvent-based products are flammable. Keep suitable extinguishing agents ready (e.g. CO₂, H₂O extinguishing powder, foam).

In case of fire, cool containers with water to prevent pressure build-up and bursting.

6. Labelling

Observe the safety and hazard information on the label in accordance with the CLP Regulation (EC) No. 1272/2008.

Contains combustible solvents – observe GHS symbols (e.g. flame for combustible substances).

7. First aid

If you feel unwell, seek medical advice.

Keep the safety data sheet to hand to provide accurate information.
