

Safety instructions for lime-based plasters

- Safety instructions for lime-based plasters:
- 1 **Product handling**: Lime-based plasters can react alkaline. Avoid contact with skin and eyes to prevent irritation or burns.
- 2 **Personal Protective Equipment (PPE)**: Wear appropriate protective clothing, including gloves, goggles and respiratory protection to prevent skin contact, inhalation of dust and eye contact.
- 3 **Ventilation**: Ensure that the work area is well ventilated to minimise the concentration of dust in the air.
- 4 **First aid**:
 - **In case of skin contact**: Rinse immediately with plenty of water and remove contaminated clothing. If irritation persists, consult a doctor.
 - **In case of eye contact**: Immediately flush eyes with plenty of water and seek medical attention.
 - **When inhaling**: Remove to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, seek medical attention.
- 5 **Storage**: Store in a cool, dry place and always close the container tightly to prevent the ingress of moisture.
- 6 **Disposal**: Dispose of unused material and packaging in accordance with local regulations. Waste containing lime must not be released into the environment.
